

SCD® IIB

STERILE TUBING WELDER

THE BIOTECH STANDARD FOR OVER 20 YEARS

STRONG, STERILE CONNECTIONS

- Creates reliable welds in less than 30 seconds
- Designed to create wet-to-dry and dry-to-dry connections
- Simple and easy to use for variety of operations such as component transfers, sampling and fluid replacement
- Helps maintain a functionally closed system even within open labs or production areas
- Ensures standardization and sterility of the connection process

From well-established sterile docking and cell processing devices to cutting-edge cell culture automation devices, Terumo BCT is committed to bringing quality technology to the biotech industry.
