

TRIMA ACCEL®

AUTOMATED BLOOD COLLECTION SYSTEM

Only One Trima Accel Automated Blood Collection System ...

To Experience Maximum Blood Center Efficiency

Operate your blood center more effectively with only one automated collection platform, the Trima Accel system. Use the Trima Accel system to process more donors and collect more transfusion doses of the components you need every day:

- Platelets
- Plasma
- Red Blood Cells (RBCs)
- Double Red Blood Cells (dRBCs)

Collecting platelets, plasma and RBCs on only one automated collection platform allows for collections to be based on daily inventory needs. Running low on red cells?

To Streamline Operations

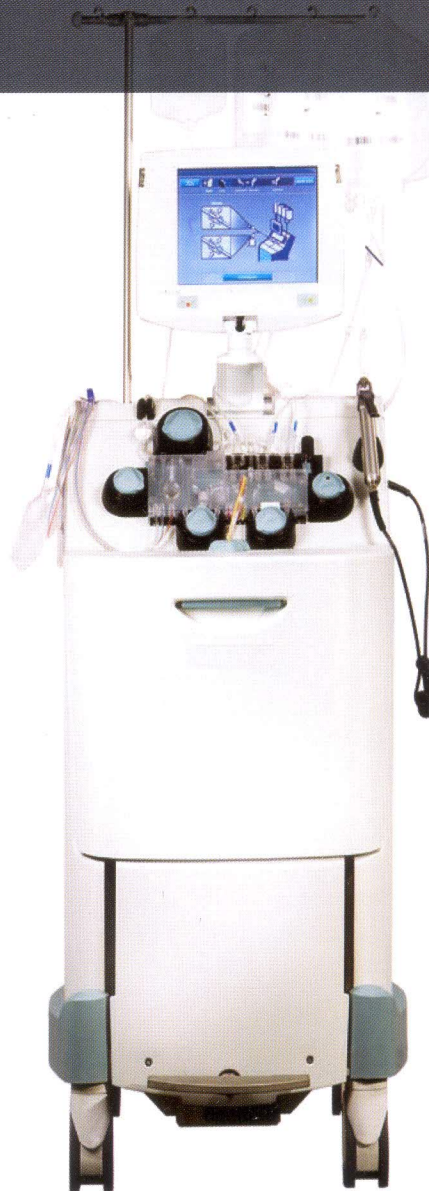

Turn on the easy-to-use Trima Accel system, load the appropriate tubing set and you're ready to go. System simplicity allows you to:

- Load and unload tubing sets quickly
- Process more donors with shorter procedure times
- Spend more time with donors and less time with the system

Choose to collect leukoreduced, or non-leukoreduced RBCs. With the Trima Accel system, you can:

- Process more donors
- Collect More RBCs
- Collect concurrent RBCs without sterile connection, or an accessory set

Terumo BCT platelet products are test ready and do not require manual processing steps or manual re-suspension.

TRIMA ACCEL AUTOMATED BLOOD COLLECTION SYSTEM

Only One Trima Accel Automated Blood Collection System ...

To Collect More Components from Current Donors.

The pool of available blood donors is shrinking. Maximize the number of transfusion doses you get from every donor by collecting combinations of platelets, plasma and RBCs.

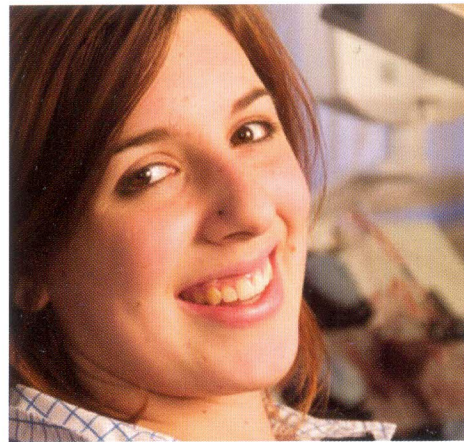

The Trima Accel System Lets You Increase the Number of Components Collected from Each Donor.

Collect products based on the percentage of a donor's total blood volume

Allow donors to safely donate more products and help more patients

Reduce donor deferrals based on volume limits with the Trima Accel system's low extracorporeal set volume

Let your regular donors contribute even more

To enjoy complete implementation support.

Terumo BCT provides everything you need for implementation success:

- Implementation that can be tailored to meet your blood center needs
- System training, implementation and service
- Sample SOPs and sample validation plans
- Whole blood donor conversion programs to train and motivate your entire blood center staff
- Donor education materials in multiple languages
